SUPERIOR QUALITY

TO THE TRADE

This list supersedes all former lists used by us. It provides for the various types of doors to which fir especially lends itself on account of the peculiar beauty of the grain pattern and its other recognized qualities.

Eliminating confusion in quoting on our large variety, one discount tells the story for every type of door in our catalogue.

Our letter of quotation gives the base discount. Page four gives the base or single list, providing for size, thickness and grade.

Extras for specialties not provided for elsewhere are shown on pages seven and eight.

Our complete table of differentials and net extras, covering all types of doors in our catalog, is shown on inside back cover of this booklet.

STANDARD SINGLE LIST

No. 7

Used by the

Fir Door Manufacturers

OF THE

Pacific Coast

ADOPTED JANUARY 15, 1923

This List is known as

“ The Fir Door M’rs. Standard Single List.”

Copyright 1923 by
SMITH-KINNEY CO.
TACOMA WASH.

EXPLANATORY

The **Single List** gives a fixed **List Price** to all doors of a given size, regardless of the kind, style or grade, the variation in price of the particular kinds, styles and grades being determined by a group of fixed discount differentials applied to the Single List.

Heretofore it has been customary to establish the variations in value of the various styles of doors by a series of fixed lists, so that quoting a single discount would give the proper relative net price on every style of door. The single list system accomplishes this same result by use of a single fixed list with definite discount differentials to cover the various grades and styles. With the fixed list and these fixed discount differentials, the quoting of a single base discount fixes the net price on every style of door on which these fixed discount differentials have been established.

The discount quoted on 5 Cross Raised Panel, Bead and Cove No. 1 Doors is known as the Base Discount, and applies to all doors taking the Base Discount; when varied as noted in the Differential Table it determines the discount on all other regular stock styles; in the case of front doors it is the discount which determines the net base price to which the front door net extras are to be added.

Front doors, on account of the limited range of sizes and the proportionate increase in labor over material cost, are not priced by the differential method, but take the Base Discount plus a certain net extra for each type of front.

This list supercedes the lists formerly used by the West Coast manufacturers. It provides a simple, definite, uniform method covering all future sales.

CONDITIONS

TERMS

Our terms are 2% for cash thirty days from date of invoice, or 60 days Net. The 2% allowed for cash is a premium for prompt payment—not a discount from prices given. If invoice has to be paid before receipt of the material in order to secure this premium, any errors discovered after checking up will be cheerfully rectified by us, just as though payment had not been made. The freight item can be determined by taking the official weight of car as shown on B/L and the rate of freight as shown on bottom of our invoice.

PRICES AND QUOTATIONS

- (a) All prices quoted are with freight allowed as specified.
- (b) Prices are subject to change without notice.
- (c) All discounts and prices, unless otherwise specified, are based on this list and the schedule of discount differentials and net extras.
- (d) All quotations are subject to the approval of home office.

CLAIMS

- (a) No guarantee is made against damage in transit, shipper's responsibility ceasing with delivery of shipment to and acceptance of same by the carrier.
- (b) Consignee should get notations of damage on expense bill, thus avoiding much trouble in collecting claims.
- (c) No claims allowed on shipments that have been transferred en route.
- (d) Consignee should examine condition of seals as soon as car is delivered to him by railroad company. No claims will be allowed on cars on which seals have been broken in transit.
- (e) No claims for shortage will be allowed unless same are presented within ten days from date of receipt of car.
- (f) No claims will be allowed for shortage on pooled cars, when contents of car are invoiced to more than one consignee.

RELATIVE TO ORDERS

(a) Cancellations, changes or substitutions will not be accepted on any orders which have been partially or wholly manufactured.

(b) Receipt of each order is acknowledged by a duplicate copy, showing shipper's understanding of the same. Each duplicate of order bears the request that it be carefully examined. Shipper should be advised by telegram of any inaccuracy. It is necessary to acknowledge receipt of duplicate copy only when an error is detected. Orders are never held for confirmation of shipper's copy unless the acknowledgment so states.

(c) All correspondence relative to orders and shipment of same should be addressed to home office of shipper.

(d) All orders are accepted and executed subject to, and without liability on shipper's part for delays and their consequences arising from causes beyond shipper's control during manufacture and delivery.

GRADES OF FIR DOORS

(Explanatory)

Fir Doors, by reason of the entirely different character of the wood from which they are manufactured, do not follow the grades established for doors manufactured from other woods. The average No. 1 Fir Door will compare favorably in grade with the usual A A A of the Official List when extra finished, besides showing beauties of grain not found in soft or other semi-hardwood doors.

The No. 1 Door, which is usually finished in the natural, or with transparent stains, is graded so that any defects admitted will not affect detrimentally the appearance of the door after it has received the finish.

The No. 2 Door as graded is primarily a high grade paint or enamel finish door and the selects are frequently used for transparent stains.

The No. 3 Door, which is supplied in limited quantities, is equally substantial, but the defects are of such a character that this door must ordinarily be used for paint finish.

It is impossible to maintain absolutely arbitrary rules in fixing grades, and slight variations within reason and governed by practical common sense may be expected.

A shipment of any grade must represent a fair average of that grade, and must not consist of an unfair proportion of the better or poorer doors of such grade.

GRADES

(Definite)

No. 1 Door

Material in No. 1 Fir Doors must be clear with the exception that each stile may contain a carefully repaired pitch seam, not over $3\frac{1}{2}$ inches long, not over 35 inches from the bottom of the door. Bottom rail may contain the same defects as the stiles. Not more than two defects on each side of door. Bright sap not considered a defect.

Workmanship must be good.

No. 2 Door

Stiles in No. 2 Doors may each contain two sound knots not over $\frac{5}{8}$ inch in diameter, or two carefully repaired pitch seams not over 6 inches long, or slightly stained material. Bottom rails and wide lock rails may contain the same defects as the stiles. Rails and muntins not over one defect in each. Panels may each contain slightly discolored material and one small pitch seam, not over $3\frac{1}{2}$ inches long. Not over ten defects on each side of a door.

Workmanship must be good.

No. 3 Door

Stiles in No. 3 Doors may each contain discolored material, sound knots not over $1\frac{1}{2}$ inches in diameter, and pitch seams not over 8 inches long.

Bottom rails and wide lock rails may each contain the same defects as stiles.

Other rails and muntins proportionate defects.

Panels may each contain pitch seams, tight knots not over $\frac{1}{2}$ inch in diameter and discolored material.

This grade is suitable for paint only.

Mixed woods admitted.

Defects in workmanship allowed.

This List is used as a Basis in pricing all Doors
regardless of Style, Grade or Kind

STOCK FRONT DOORS

Each stock factory specializes in certain types of Fronts, and a regular list will be furnished on application, with quotations showing net extras to be added for each kind, after applying the base discount to the base list.

LIST EXTRAS

SECTION I.

(a) When the term, "Stock Quantity" is used in this list, it means ten or more of one size, style and quality. (On catalogued Fronts, five of a size, style and quality will be considered stock quantity.) The term, "Stock Size," means those sizes listed as regular stock in some particular style of door. Other sizes on Base List not indicated as stock will be priced in accordance with the following:

(b) For irregular and intermediate sizes, use same list as next larger size listed.

(c) For doors in less than Stock Quantities 10% additional will be charged.

SECTION II.

Wherever in this list it is noted to add or deduct a given percentage to create a new list figure, such list figure is to be made end in 5 or 0, as do all present list figures. Where a new list figure ends otherwise, advance or reduce arbitrarily to reach nearest 5 or 0 ending, advancing in case of an exact split. This rule inserted to avoid vexatious slight variations in accounting.

RULE 1

Larger Than Listed

(a) Wider than listed sizes, use widest list specified of same height and add for each additional 4 inches or part thereof 10%

(b) Longer than listed sizes, use longest list specified of same width, and add for each additional 6 inches or part thereof 10%

(c) Single Doors made to represent pairs, add \$3.50 list

RULE 2

Thick Doors

(1) 2-inch or 2¼-inch doors, add to list of a 1¾-inch door, same size 100%

(2) 2½-inch doors, add to list of a 1¾-inch door, same size 20%

RULE 3

Stiles and Rails

(a) For wider stiles than the width used as stock in any particular style of door, shorten discount two points for each additional inch of width or part thereof.

(b) For wider rails than the width used as stock in any particular style of door, shorten discount ½ point for each added inch for each wider rail.

RULE 3-A

Sticking

(a) Bead and Cove sticking is stock.

All other styles of sticking two points short of base discount.

RULE 4

Astragals, Loose (Not Put On)

Single, for folding doors not over eight feet high:

(1) If doors are 1¾-inch thick, or less \$1.25 List

If doors are 2¼-inch or 2½-inch thick, or less 4.00 List

Double, for sliding doors not over eight feet high:

(2) If doors are 1¾-inch thick, or less 1.50 List

If doors are 2¼-inch or 2½-inch thick, or less 5.00 List

(3) Astragal Joints on stiles, add per pair 2.50 List

Rabbeting

Rabbeting and Beading folding doors made extra wide for rabbeting, add to proper list for such doors, per pair \$2.50 List

RULE 5

Mirror Doors

(Counter Sunk and Mould for Mirror)

(1) One Panel Doors, made to receive mirror one side, add to list of similar panel door \$2.00 List

(2) Two Panel Doors, made to receive mirror one side, add to list of similar panel door \$4.20 List

(3) Other Panel Doors, made to receive mirror one side, add to list of similar panel door \$6.50 List

DOOR EXTRAS.

RULE A

Moulded Panels

For doors with Moulded Panels, add the following extras to the net price of either 1½-inch or 1¾-inch doors:

For Flush Moulded One Side, per panel	32c
For Flush Moulded Two Sides, per panel	64c
For Raised Moulded One Side, per panel	48c
For Raised Moulded Two Sides, per panel	96c
Glass openings considered as two panels.	
Heavy raised panels add 50c net per panel.	

RULE B

Glass Beads

For Beads around glass in a door with one or more rectangular lights, add to the net price of such door as follows:

For Plain beads in one-light door	No charge
For cutting in glass beads in doors containing more than one light add for each light	12c
For E. & D. Pressed Mould Beads, each light	1.00

RULE C

Sash Sticking

For Sash Sticking on all styles Sash Doors, add to the net price of door

60c

RULE D

Cutting in Lights

For cutting in lights on common types of Sash Doors, with bars made same sticking as door, beads extra, add to the net price of door for each light

16c

For all other types for each light

16c

(For sash sticking additional, see Rule 6)

RULE E

Bead and Butt

For Bead and Butt Panels, in Panel Doors, add to net price of Panel Door

\$ 1.40

For Bead and Butt Panels in Sash Door, add to net price of Sash Door

\$ 3.00

RULE F

Dutch Doors

For Dutch Doors, or doors made to cut through lock rail, stock quantities, add to net price of door of same style. \$4.00

For Dutch Doors, Cut, Rabbeted and Beaded

8.00

RULE G

Pooled Cars

An extra charge of \$20.00 will be made for each lot shipped and billed separately in car. It being understood as well that all delivery charges from car to warehouse are assumed by consignee.

RULE H

Crating

¾-inch Doors will be crated 8 to the bundle; 1½-inch Doors 6 to bundle; 1¾-inch Doors 5 to bundle; 1¾-inch Doors 4 to bundle, and 2¼-inch Doors 3 to bundle; Raised Moulded Doors or 1¾-inch Fronts with water table 2 to the bundle; at a crating charge of \$3.00 for each bundle. If fewer doors are crated in each bundle, charge will be the same.

NOTE

All orders will be shipped as ordered as near as possible but we reserve right to increase or diminish as required in order to use the car that is furnished.
